APPROVAL OF GROUNDWATER MONITORING WORK PLAN 2008, BOEING CORPORATE REAL ESTATE, FORMER C-6 FACILITY, 19503 SOUTH NORMANDIE AVENUE, LOS ANGELES (SLIC NO. 410, SITE ID NO. 1846000)

Dear Ms. Wiley:

We have received the "Groundwater Monitoring Work Plan 2008, Boeing Former C-6 Facility, 19503 South Normandie Avenue, Los Angeles, California", (Work Plan) dated February 4, 2008, prepared by AVOCET Environmental and your letter dated February 5, 2008, summarizing the changes from 2007 to 2008 in the groundwater monitoring work plan. Groundwater beneath the former facility contains various volatile organic compounds exceeding their respective California drinking water Maximum Contaminant Levels (MCLs) and Water Quality Control Plan (Basin Plan) objectives. Boeing proposes to conduct a site wide annual monitoring event in March 2008, and a plume boundary specific, semi-annual monitoring event in September 2008.

The Work Plan presents the rational and procedures for the proposed facility-wide groundwater monitoring program for 2008. The groundwater monitoring program proposed is in addition to the required monitoring being completed under the individual waste discharge requirements (IWDR) monitoring and reporting program implemented at the site. We have reviewed the Work Plan and approval its implementation. Please submit semi-annual reports presenting the results of the 2008 groundwater monitoring program by **May 30, 2008** and **December 31, 2008**.

If you have any questions please call me at (213) 576-6738 or email at atownsend@waterboards.ca.gov.

Sincerely,

Ana M. Townsend
Water Resources Control Engineer
Site Cleanup I Unit
